

Hugh W. Mansfield

President
The Bizcom Group
Toronto, Ontario

Hugh Mansfield is President of The Bizcom Group, a Canadian company focused on AI governance technologies and helping organizations establish responsible and effective AI governance frameworks.

Hugh holds an LL.M. in Innovation, Law & Technology from the University of Toronto Faculty of Law and ISO/IEC 42001 Lead Implementer credentials. He is also a CIPP/C privacy professional with the International Association of Privacy Professionals.

His work focuses on AI governance, organizational risk, regulatory compliance and human oversight. Hugh serves on the Canadian Digital Governance Standards Institute's Ethical and Technical Advisory Committees and is a founding advisory member of Ontario Tech University's AI Governance and York University's AI Governance Continuing Education programs. He previously served as a founding Advisory Board member for the University of Toronto Rotman School of Management's Master of Management Analytics program.

Hugh is an active speaker and contributor on AI governance issues and is available to comment on AI governance and regulation, organizational and board accountability, human oversight, shadow AI, privacy, responsible AI and the implementation of recognized AI governance frameworks.
