

Sacha Blasiak-Priestley, CISSP

Director, Cybersecurity
BDO Canada
Toronto, Ontario

Sacha Blasiak-Priestley is an experienced cybersecurity leader with over two decades of experience helping organizations securely navigate digital change. She brings deep expertise across all security domains, with a strong focus on enabling secure digital transformation—including cloud adoption, modernization initiatives, and the safe use of emerging technologies such as AI.

Sacha helps clients stay ahead of an evolving threat landscape by embedding security into transformation programs from the outset, balancing innovation with risk management. Her approach emphasizes prevention, resilience, and continuous improvement through security assessments, incident response planning, and ongoing monitoring.

Known for translating complex cyber and technology risks into actionable insights, Sacha enables leaders to make informed decisions that strengthen cyber resilience while accelerating business outcomes.

At BDO Canada, Sacha leads Cloud Security Engineering and Cyber Risk Transformation services, supporting organizations across the public sector, financial services, retail, and manufacturing.
