

Daniel Brosseau, M.B.A., B.Sc.A. (Eng.)

Founder

Letko, Brosseau & Associates Inc.

Montréal, Québec

Daniel Brosseau's exceptional career path has provided him with outstanding knowledge and a remarkable business vision, and it has led to the fortuitous meeting with Peter Letko, which brought forth the foundation of Letko Brosseau in 1987. Recognized as a builder and a great visionary, he was able to carry out various projects that led to the rapid growth of a very successful firm, managing several billion in assets for institutional and private clients. Daniel joined CN's investment division in 1978, reporting directly to the president. This allowed him to take part in several management positions, namely oil and gas manager, private equity, and international investments divisions. In addition to partaking in formulating CN's pension fund policies, Daniel represented the fund on several company boards. From 1981 to 1987, he worked on creating CN pension fund's oil and gas subsidiary. Daniel graduated from the Université de Montréal with a bachelor of science degree in industrial engineering (B.Sc.—Polytechnique) and a master's degree in business administration from HEC Montréal.
