

David Cass

**Senior Partner
Law & Forensics LLC
New York, New York**

David Cass recently joined Law & Forensics LLC as a senior partner. He leads the Cryptocurrency and Digital Banking Practice and is also a member of the Cyber Security and Forensics Practice. He has extensive experience in financial services regulation, cryptocurrency, digital assets, blockchain, cloud, artificial intelligence and digital banking. Cass recently completed serving as a lead regulator for the Federal Reserve Bank of New York where he was a member of the Large Institution Supervision Coordinating Committee (LISCC). Previously, he was the chief information security officer for IBM, where he had global responsibility for all aspects of cloud security practices, processes and policies across the IBM security services business unit. Prior to joining IBM, Cass served as the senior vice president and chief information security officer for Elsevier, where he led an organization of experienced legal, risk and security professionals that provided data protection, privacy, security and risk management guidance on a global basis. Cass has extensive experience in IT security, risk assessment, risk management, business continuity and disaster recovery, and developing security policies and procedures. He has played a key role in leading and building corporate risk and governance and information security organizations in the financial sector. As the senior director of information security risk and governance for Freddie Mac, Cass rebuilt the risk and governance function and developed a team to provide risk assessments, methodologies, tools, services and training to improve the organization's capabilities and maturity. Prior to that, he was vice president of risk management for JPMorgan Chase, where he was responsible for providing an accurate assessment of the current risk management state, contributing to the future direction of risk management, continuity and disaster recovery capabilities for the organization. He is a frequent speaker at high-profile industry conferences and served on the board of directors for a public corporation. Cass holds an M.S.E. degree from the University of Pennsylvania and an M.B.A. degree from MIT.
