

Danielle Dang, M.D., M.P.H.

**Senior Medical Director
Maven Clinic
Philadelphia, Pennsylvania**

Dr. Danielle Dang is a full-spectrum family medicine physician committed to driving systemic change in underserved and vulnerable communities. She currently serves as the senior medical director at Maven Clinic, the world's largest virtual clinic for women's and family health. In this role, she leads the delivery of continuous, holistic care across the full spectrum of reproductive and family life—including fertility, pregnancy, parenting, pediatrics, and menopause. Prior to Maven, Dr. Dang was market medical director for new markets and implementation at Cityblock Health, where she was responsible for designing and operationalizing Cityblock's value-based care model for Medicaid and low-income dually eligible populations. Her work focused on advancing equitable, community-based care delivery across new geographies. Dr. Dang's earlier career includes leading Medicaid outcome improvement initiatives in Philadelphia, managing a research portfolio focused on HIV/AIDS treatment and prevention in Boston, and expanding access to HIV testing and counseling in Zambia and Rwanda. She holds a master of public health degree from Boston University and earned her medical degree from Thomas Jefferson University.
