

## **Michael J. Goldberger**

Co-Founder and Partner

MIDIOR Consulting/Modern Administration Systems

Cambridge, Massachusetts

---

Michael is a seasoned innovator, accomplished engineer and masterful data scientist. Michael's current focus is on modernizing platforms and data access for unions and their benefit funds through two firms he co-founded: MIDIOR Consulting and Modern Administration Systems. At MIDIOR, Michael leads the delivery of technology and data services, including major system upgrades, data warehouse implementation and mobile app development. Michael's extensive experience with benefit fund systems and their underlying data also underscore his role at Modern Administration Systems, where he serves as co-founder and Chief Technology Officer, overseeing solution design, development and delivery. Michael also has a current streak of completing the daily New York Times crossword puzzle approaching 10 years (3,500 days).
