

Gene Kalwarski, EA, FCA, FSA, MAAA

**President and CEO
Cheiron Inc.
Washington, D.C.**

Gene Kalwarski is a co-founder of Cheiron Inc., an independent, employee-owned actuarial consulting firm with offices around the country. For more than 45 years, Kalwarski has advised multibillion-dollar Taft-Hartley and public pension funds. His experience includes serving as the plan actuary to some of the nation's largest multiemployer pension plans and numerous state, county and city pension funds. Kalwarski was one of the first actuaries to encourage pension plans to conduct stress tests to manage their risks, and he developed and popularized the use of interactive projection modeling tools for annual valuations. Before founding Cheiron, he worked for more than two decades at Milliman Inc., where he set up the firm's Washington office and served on its board of directors. Kalwarski has written several articles about pension plans, and is frequently quoted by the press. He is a fellow of the Society of Actuaries—the highest professional accreditation—a member of the American Academy of Actuaries and an enrolled actuary under ERISA.
