

Shelley Moss, ASA, MAAA

**Associate Actuary
Milliman
Salt Lake City, Utah**

Shelley Moss is an associate actuary with the Salt Lake City office of Milliman. Her 12 years of experience covers many projects, including pricing, reserving and financial forecasting for commercial products. Moss's clients include employers, brokers, public and government entities and insurance organizations. Her recent experience includes actuarial equivalency testing, small group pricing, reserve calculations, financial forecasting, rate assessment studies, Medicare bids, Medicaid rate setting and actuarial aspects of annual statement work. In 2020, she co-authored a report sponsored by the SOA titled "Comparing Measures of Social Determinants of Health (SDOH) to Assess Population Risk." This research report examined Colorado fee-for-service Medicaid beneficiaries and different data sources available to evaluate SDOH and inform the ongoing optimization of population health and payment models. She co-presented the findings of this report at the 2020 SOA Annual Health Meeting. Moss earned her B.A. in statistics with an emphasis in actuarial science from Utah State University.
