

**Heidi Riney, M.D., DABPN**

**Chief Medical Officer  
Nox Health  
Atlanta, Georgia**

Dr. Riney is board certified in sleep medicine and neurology by the American Board of Psychiatry and Neurology (ABPN). She is a member of the American Academy of Sleep Medicine (AASM) and Georgia Association of Sleep Professionals (GASP) as well as the National Sleep Foundation (NSF), where she serves on the public affairs committee. She completed her medical training at Wake Forest, her neurology residency and neurophysiology fellowship at Emory University, and her sleep medicine fellowship at FusionSleep. During her neurology residency, Dr. Riney taught neuroanatomy courses and led small group clinical cases with second-year Emory medical students. She was also involved in research, looking at concentric-needle single-fiber electromyography for the diagnosis of myasthenia gravis. After her neurology residency, Dr. Riney completed a clinical neurophysiology fellowship at Emory University. During her fellowship, she led weekly lectures with neurology residents on topics related to electromyography and electroencephalography. Dr. Riney currently evaluates adults and children with sleep, wake and circadian rhythm problems at the Atlanta North location.
