

Joseph Salloum

**Senior Manager, Data & AI
BDO Canada
Ottawa, Ontario**

Joseph is a senior manager in BDO Canada's technology consulting practice in the data and AI service line. He has over 20 years of experience designing and delivering large-scale web applications, data platforms, AI-driven solutions for clients in the financial services, energy, and public sectors. His work centers on guiding organizations through the modernization of their data infrastructure, the adoption of advanced analytics, and the integration of AI solutions, ensuring that each initiative delivers measurable value and aligns closely with strategic business objectives. Joseph leads responsible AI efforts at BDO, shaping ethical standards, managing AI risks, and ensuring regulatory and societal alignment. Prior to joining BDO, Joseph held engineering and leadership roles at Lixar and Data Quest, where he led teams in modernizing legacy systems and implementing cloud-native solutions. He has served as lead solution architect on projects for organizations in highly regulated sectors, including financial services (banks, credit unions, insurance), renewable energy, and institutional asset management. Joseph holds both bachelor's and master's degrees in computer science from Notre Dame University (NDU) in Lebanon.
