

Melissa Fahrenbruch, M.Ed.

**Program and Professional Development Team Lead,
Division of Population Health
School Health Branch
National Center for Chronic Disease Prevention
and Health Promotion
Atlanta, Georgia**

Melissa Fahrenbruch is the program and professional development team lead in the Division of Population Health's School Health Branch, National Center for Chronic Disease Prevention and Health Promotion, Centers for Disease Control and Prevention (CDC). She currently oversees two school health cooperative agreements for states and national organizations and is the lead for internal and external professional development events for CDC staff and funded partners. Fahrenbruch has over 25 years of experience in the education field as a teacher, coach and high school principal. Her school health expertise led her to Kansas where she was the director of CDC's coordinated school health program in the early 2000s. She then moved to Atlanta to serve as a project officer of that program, which led her to her current position as team lead. Fahrenbruch earned a bachelor of science degree in education from the University of Nebraska and a master's degree in educational leadership from Doane College.
